

Genius Search celebrates its first successful anniversary

Firstly, we thank all our clients and the Genius team for their support over the last twelve months.

We are proud to have successfully concluded quite a number of challenging search assignments, from several C-suite roles over various upper and middle management positions to some “needle-in-the-haystack” expert functions.

Our people-oriented approach has been highly rewarded.

With enthusiasm and passion for people we deliver a unique, high-quality experience in life sciences to candidates and clients.

We aim to make a difference to the future evolution of our clients’ organization and of our candidates’ careers.
